Objective

Highly skilled and experienced full stack developer with a strong focus on building robust and scalable web applications. Proficient in various programming languages and frameworks, including react.js, PHP. Adept at designing and implementing RESTful APIs, optimizing database performance, and integrating with front-end technologies. Demonstrated ability to work collaboratively in cross-functional teams, providing technical expertise and contributing to successful project outcomes. Proven track record of delivering high-quality code, adhering to coding standards, and following industry best practices. Seeking new opportunities to leverage my skills and contribute to the development of innovative software solutions.

Experience

- Waldeck International** April 2022 - Present
Front end developer
As a web developer/web designer with Waldeck International, I excel in engaging directly with clients to design and develop unique software solutions. My expertise lies in web development, where I leverage my skills to craft interfaces that are both visually appealing and functional. Through collaborative efforts with clients, I collect requirements and transform them into captivating web designs. This role enables me to seamlessly merge the artistic and technical elements, guaranteeing the creation of personalized web solutions that meet client expectations.
- Orange arts** Jan 2022 - March 2022
Frontend developer
Helped the company take advantage of the market by combining research, fundamental and technical analysis to maximize their profit. Scaling their online presence through technological means to enable them interact with their audience.
- Jtc Consult** December 2022 - March 2023
Mid PHP Developer - Internship
As a junior PHP developer, I had the opportunity to work on various impactful projects. One of my key accomplishments was creating and deploying a highly scalable RESTful API using Node.js and Express.js. This implementation significantly enhanced the performance and efficiency of client-server communication, leading to a smoother user experience.
Another project I contributed to was the integration of a real-time messaging feature into a web application using WebSocket technology. By doing so, I successfully increased user engagement and improved the overall user experience.
In pursuit of optimizing the application's performance further, I focused on refining database queries and implementing caching mechanisms. These efforts resulted in a remarkable 30% reduction in response time, making the application more responsive and enjoyable for users.
I also collaborated closely with the front-end team to implement a robust user authentication and authorization system using JSON Web Tokens (JWT). By ensuring secure access to sensitive data, we were able to enhance the application's security and provide users with a seamless and safe experience. These experiences have been invaluable to me as a junior developer, allowing me to grow both technically and professionally, and I look forward to continuing to contribute to impactful projects in the future.
- Vinbakes** Feb 19th 2022 - Feb 24th 2022
Front end developer - Contract
Developed and maintained responsive and interactive user interfaces using HTML, CSS, and JavaScript. Implemented modern frameworks such as React.js or Vue.js to build efficient and scalable front-end applications.
- Luzoma Tech** June 2023 - December 2023
Full stack developer
During my internship at Luzoma Tech in September 2023, I delved deeply into PHP and MySQL development. I actively participated in a collaborative team of developers, contributing to a diverse range of projects spanning

from web applications to database management systems. My responsibilities encompassed writing efficient PHP code, designing and optimizing MySQL databases, and resolving issues to guarantee seamless functionality. This hands-on experience provided me with valuable insights into web development best practices, version control, and agile project management. In essence, my tenure at Luzoma was a gratifying learning journey that significantly enriched my skills and comprehension of PHP and MySQL development.

- **Elbef**

WordPress PHP Developer

Experienced WordPress Developer with a proven track record of creating and customizing WordPress themes, plugins, and websites. Adept at combining technical expertise with a creative mindset to deliver visually appealing and high-performance WordPress solutions. Strong problem-solving skills and a commitment to staying up-to-date with the latest industry trends.

Skills Displayed:

WordPress Theme Development

Custom Plugin Development

HTML, CSS, JavaScript, PHP

Responsive Web Design

MySQL Database Management

Git Version Control

SEO Optimization

Website Optimization and Performance Tuning

Education

- **National Institutes for Information and Technology (NIIT)** 2019-2022
Software Engineering
- **Greenoak International School** 2019

Skills

- Html
- CSS
- JavaScript
- Figma
- Android Development using java
- SASS
- Bootstrap
- React js
- jQuery
- MYSQL
- PHP
- WordPress

Projects

- **Rice bowl** - <https://ricebowl.netlify.app/>
- **Portfolio** - <https://bootstrap-john-portfolio.netlify.app/>
Created a portfolio template for a customer in need of my services.
- **Evento** - jessicakorubo.github.io/Evento
A website that tracks events.
- **Catering website** - vinbakes.com
- **Weather app** - <https://weatherappupdates.netlify.app/>
Fetches real time weather info from an API
- **GitHub Repo**

Achievements & Awards

- OND full stack software engineering certified
- Complete react js course Skillshare
- Complete web development course Udemy
- Android development course Udacity

Languages

- English

Personal Details

- Nationality : Nigerian
- Gender : Female

Additional Information

Soft skills.

- ~ Attention to detail
- ~ Punctual with deadlines
- ~ Skilled communicator
- ~ Orderly fashioned
